Bachelor of Technology |National Institute of Technology Agartala,Tripura,India

Personal Github: <https://github.com/Sarrrt303>

EDUCATION

Bachelor of Technology in Bio-Engineering

National Institute of Technology,Agartala(2020–2025)

CGPA: 7.23 (Till date)

PROJECTS

Portfolio

A personal portfolio built with React and Tailwind CSS to showcase projects and provide contact information.

- Built with Vite+React, styled using TailwindCSS.
- Hosted on:[/link/](#)

DiabeticRetinopathyDetectionModel

Developd a deep learning pipeline to classify diabetic retinopathy using various CNN architectures including ResNet, EfficientNet-Bo/B5, DenseNet, and VGG19.

- Preprocessed APTOS2019 dataset ands toredimagesas .pklfilesfortraining.
- Technologies:Python,TensorFlow,Keras,Pandas,OpenCV,GoogleColab.
- VGG19-basedmodellink:[/link/](#)

WebpageReplicationfromFigma

Cloned a Figma-designed webpage eusingself-written code and Figma assets.

- Technologies:HTML,CSS,JavaScript,TailwindCSS,Next.js
- Hostedon:[/link/](#)

CERTIFICATIONS

- ResponsiveWebDesignCertification–FreeCodeCamp([\[ViewCertificate\]](#))
- JavaScriptAlgorithmsandDataStructures–FreeCodeCamp([\[ViewCertificate\]](#))

TECHNICALSKILLS

Languages:Python,JavaScript,PHP,HTML,CSS

Frameworks&Libraries:Django,React.js,Next.js,TailwindCSS

Tools:Node.js,VSCode,Git,GitHub

Databases&Cloud:MongoDB,Firebase,MySQL

Coursework:DataStructures&Algorithms,OperatingSystems,OOP,DBMS,SoftwareEngineering,Web Development

AreasofInterest:ResponsiveWebDevelopment,CloudSecurity

SoftSkills:Problem-Solving,Self-Learning,Adaptability

POSITION OF RESPONSIBILITY

- Part-time freelance tutor(2021–2024),teachingScience,Computer,andMathematics to studentsfrom Class 6–10.
- Volunteer at **Egaro Photo Festival** in 2018 and 2019 events.

WORKEXPERIENCE

FreelanceDevelopment–Homchang([Homchang](#))

March2025– Present

- Fixed core code base issues,optimized dynamic data handling.
- Implemented image upload via Cloudinary and Quillintegration for rich-text editing.
- Developed a custom Quill component for enhanced contentcreation.
- Streamlined article creating/update flow in admin side.
- Added new features like, video redirection, pagination, and UI improvements.
- Works like protected Video Player to be done

JuniorAssociateDeveloper–Calanjiyam Consultancies and Technologies

January 2025–present

- **Client Invoice Inventory Management Portal**

1. Worked on fixing backend and frontend issues, realtime database connection to components
2. Created and ran test cases to detect bugs and streamline the workflow.

- **Lotus Education**

Took charge of developing full stack website for selling Law courses. Designed the database, developed a few services and handled UI/UX for the project. Also performed end to end testing and included the corresponding bug fixes

Features:

1. Custom html payment portal
2. User/Admin authentication(token based)
3. Video Player protected with payment approval logic
4. Tools for admin to get statistics, make/manage courses and respond to people who message them

Trainer(HTML/CSS, PHP)- Calanjiyam Consultancies and Technologies

May 2025- present

Teaching students about the use of HTML/CSS and PHP basics, best practices and use in Web Development.(Beginner-Intermediate)
